NOTE: As a result of the passage of the NICS Improvement Amendments Act of 2007 and the new reporting requirements, a system build took place on 5/19/08 to change the NICS Index and associated reporting capabilities. Records entered into the Federally Denied Persons File prior to this date will continue to appear in the Denied Persons File until such time each agency modifies the category of the records previously entered to reflect the appropriate category associated with a federal firearms prohibition. The statistical fluctuation from August to September 2009 in the Immigration and Customs Enforcement category was due to a refreshment of their files.
